OPPOSITION DECLARES GASOLINE A NECESSITY

Morning Session - Gen-Come Up This Morning.

By a vote of 29 to 7 the house bill placing a tax of 1 cent per gallon on gasoline and other combustible motor fuels was passed at the Friday night session of the senate. During the morning session the house compromise highway bill was assed after it had been amended so as to give the governor the right to name the chairman of the highway commission.

Debate lasted for two hours, when the gaseline tax bill came up for passage and as soon as it was adopted Senator Wall, who fought it, gave notice that he would move to reconsider Saturday morning. Amendments Are Lost.

Two amendments were offered to the bill by Senator Wall, both of which were lost. The first amendment sought to reduce the tax from one cent to one-half cent per gallon. The second amendment sought to exclude from the tax all gaso-line bought to be used for business

SALADS AND SALAD ORESSING.
(Article No. 1.)

The Origin of Salads.—We think of salads as belonging to the menus of today, when they are really very old, as we learn that in the building of the Pyramids over a million dollars was spent on salads alone to feed the workmen. An ancient law of the Romans compelled the use of salads with meats, while as far back as the Passover the early Jews served lettuce and dandelions combined with oil and vinegar.

Food Value of Salads.—The nourishment of salad depends upon the ingredients used in it. Even those that have little food value are refreshing appetizing and wholesome. The green vegetable salads contain mineral salts, while heat and energy value are obtained from the oil, cream nd eggs used in the dregsing. The salad served with a dinner of several courses should be of fruit or vegetables mixed with a French dressing, while the salad that forms a main dish for a luncheon or supper may be made of a combination

Salad Dressing Without Oil.—Two egg yolks, 1-2 teaspoon sait, 1-2 teaspoon sugar, 1-4 teaspoon mustard, 1-4 teaspoon paprika, 2 teaspoons lemon juice or vinegar, 1 egg, white beaten dry. 2 tablespoons melted butter, 1-3 cup double cream. Beat the egg yolks, add the seasoning and lemon juice, then the butter and cream, and lastly the beaten white of egg.

naise or cooked dressing.

UNCOOKED SALAD DRESSINGS.

PLAIN FRENCH DRESSING.

The general rule for French dressing calls for twice as much oil as yinegar:

Four tablespoons olive, 1-2 teaspoon salt, oil, 2 tablespoons vinegar, 1-4 teaspoon pepper.

Put salt and pepper in bowl, add a little oil and stir well, then gradually pour in the remainder of the oil, stirring all the while. Add the vinegar little by little, beating briskly. This dressing can be made and kept on hand, but should always be stirred well before being added to the salad.

Mrs. C. V. B., Arkansas—Tere are several ways of cooking a soft boiled egg—the best of which is not to boil it at all. Use one pint of boiling water for each egg to be cooked. Carefully lower the egg into the water, cover the saucepan and let stand on the back of the stove for eight or ten minutes. Do not increase or diminish heat. The white of the egg will be tender and the yelk firm all the way through, instead of the yolk being partly uncooked and the whites very tough as in the case with a three minute boiled egg.

Washington, August 5 .- Speaking in behalf of his bill to amend the Smith-Lever future trading act by providing for actual deliveries of cotton on future contracts, Senator terday declared that the cotton crop sometimes was sold "twenty-five

times over" by future trading, thus depressing spot prices. Present practices, he said, amounted to "confiscation" of cotton in some instances. He urged congress to pass a "just" law, giving buyers and sellers the right to choose half of the grades for delivery, as proposed by his bill.

Senator Smith, his colleague, however, opposed the bill and denied that the present law was unjust, unfair or discriminatory, if properly administered. Rulings of the federal government and cotton exchanges regarding cotton grading, he said, were largely responsible for discrimination against growers. Most unfortunate, Senator Smith declared, was the government order clared, was the government order against use of cotton below mid-dling grade in governmental ma-

Cravens' statement in part follows:

"Before giving out this interciew, I notified the imperial wisard, Colonel Simpona, in Atlanta, exactly what I was going to do, and asked him if there was anything to show my present ideas erroneous, to show me in advance of this publication. He made no attempt to answer it, for the simple reason that it cannot be answered. Everything here stated has been repeatedly said to him for the past month. I have given him every opportunity to prevent this, and he sannot meet the issue.

Tarheal Rand Dishanded.
"Every person before admission is guaranteed the right to sever the connections at any time. Accordingly, I have made my, resignation direct to the imperial winard, to whom only I am answerable, both as grand dragon and as a klansman, this obe effective at noon of August 6. At the time of this interview I am the supreme head of the order in North Carolina, subject only to the imperial wizard, and I now declare the ku Klux Klan in North Carolina disbanded and abandoned, every organized klan ended, and every klansman released from his connection, his responsibility and his obligations. I shall not violate the obligations, and I shall give out no secrets of any kind, and neither shall I use the knowledge I possess of the membership and all other operations up to date, but because of these things all persons implicated in it in the state should realize that when I say the thing is ended, it is ended. To make this result certain every incorporated city and town in the state should pass an ordinance profibiting any persons from appearing on the streets or in any public place wearing any mask or other thing to conceal his identity.

"The secrety is nothing at all, because there isn't any. The imperial wizard has sent telegrams to me in my official capacity to High Point, which were read over a party line to me from the telegraph office. In this interview, I am disclosing nothing whatever that isn't aiready known. The only secrets of consequence known to me concern

seriously, but simply have hoped in spite of the facts facing me, that it might be made so.

"One of the most obnoxious features to me is the claim that this commercial thing is a memorial to the original Ku Kux, and their use of that idea is to get more money. Another of the claims is that it is working hand in hand with the American Legion and the Masonic fraternity, all of which are rank fraude.

"On July 26 I wrote a personal letter to the imperial wizard, containing a resume of what is in this letter. On August 1 I wired him that his failure to answer would be taken as admission of the correctness of my statements and as justification for their publication. On August 3 I again wired him my definite resignation, effective at noon August 5, and asked him again to wire me if he had anything to say. No answer was received to any of these communications. I have been fair in spite of the unfairness I have received. I have violated no part of my obligations of April 11, and they will remain sacred and inviolate, no matter what I am forced to suffer, nor what falsehoods I have to face, nor what breach of the faith may come from the other party to the trust, even though this makes it impossible for me to defend myself against misrepresentation by the ones who have taken that which might have been good and have made of it an evil thing."

During his speech, the Georgia senator mentioned that a member of the federal reserve board had attempted to intimidate a member of congress from Georgia, because the Georgia representative had critcised the board. Senator Watson said that he had read the letter.

Ridiculous World Bank Plan.

In the senate yesterday, Senator Hitchcock, of Nebraska, made a speech favoring the establishment of an "international bank" or "bank of nations." Watson ridiculed the suggestion of the Nebraskan, saying that this country already had many international banks, that "J. P. Morgan owns international banks, and the Rothschilds own a group of international banks, and Belmont has one, and Kuhn, Loeb & Co. own several."

and Kuhn, Loeb & Co. own several."

He said that Senator Hitchcock's plan of investing \$800.000,000 of our "idle gold in a bank of nations would amount to delivering that much of our gold to J. P. Morgan, the Beimonths, Kuhn, Loeb & Co. and other international exploiters."

At this point he plunged into the late world war and expressed his belief that the banking interests had something to do with America's participation in the war. Senator Watson said that few people knew why we went to war, and that all they knew about it was "that it cost this country thirty billions of, dollars."

Senator Watson said republican leaders could find time to give Colombia twenty-five millions in the interest of the Standard Oil company, and that they could find time to give the railroads five hundred millions, but they were too busy taking vacations to aid the producers of the south and west.

### SERIOUS FAMINE IN COAL FEARED

Continued from First Page.

lou, editor of The Black Diamond, the leading coal trade publication. "The United States normally uses between \$25,000,000 and \$50,000,000 tons of bituminous coal in domestic consumption. This year we will have \$75,000,000 tons, unless conditions up to August 1 improve. "This is due to lack of activity in industry, and the resulting lack of traffic of railroads which normally use about 38 per cent of our bituminous coal. "But the refusal of the buying public to take advantage of the lowest prices they will be able to get this year is the biggest reason. The public seems to be waiting for freight rates to come down before buying coal. Mr. Hoover and Chairman Clarke, of the interstate commerce commission, have assured us that cuts in freight rates will not be possible in time to affect this year's coal transit.

"Bituminous coal is selling to retailers now at \$3 per ton at the mine and is therefore comparatively cheap to the public. This condition will not continue very long."

TO BE CONDUCTED

BY PAUL STEVENSON.

If you should stroil out Oakland City way these days and happen to see I. N. Ragsdale, Chief of Police Beavers, Chief Cody, Alderman Spratt or any of the other notables of that section bilthesomely tripping about on "Tom walkers," don't be surprised, as "everybody's doin' it" out there these days.

What are "Tom walkers," you say? Why, bless your heart, don't go to talking about "stilts" out there in Oakland City. They are "Tom walkers" to everybody and every kid, big, little, fat, ben, short, tall, straight-haired, curley-headed, blue-eyed black-eyed knock-kneed, flat-footed, stump-toed, freekle-faced in that whole section has a pair.

It all started when Colonel Willtall, straight-haired, curley-headed, blue-eyed black-eyed knock-kneed, factfooted, stump-tood, freckle-faced in that whole section has a pair.

It all started when Colonel Williams, of the Candler warehouse, while working about the house, decided to manufacture three pairs for his kids. When the little Williamses got out on the street with them the news spread like scandal in a small town. Soon all the kids in Oakland City, were clamoring for "Tom walker" factory in his basement supplying the kids in his immediate neighborhood but the supply was nothing to the demand. All the daddies that came home from work at night were compelled to get a flash light or a lantern and go out in the yard looking for sticks to make "Tom walkers." The older people began to walk on them "just for fun" and it's a regular fad out there now.

The substitute to the measure was tee at the instigation of the state highway department. The bill, as passed by substitute, now provides that money collected from automobile taxes shall be distributed by the highway department to counties on a proportionate basis of their state road mileage. These funds, it adds, are to be used by county commissioners acting in conjunction with the highway department, and 10 per cent of the total fund can be held annually by the highway department for emergency use provided that, if it is not all used up at the end of the year, the remainder shall be distributed to the counties. The measure further provides that several counties may pool their funds if they see fit and act in conjunction with the highway department in completing a local project desired, by all.

to give Governor Hardwick the right to name John Holder chairman in January instead of having Stanley Bennett, of Quitman, member of the present commission, become chairman in accordance with the automatic rule of the chairmanship. It was stated that Mr. Bennett did not desire to become head of the board.

Opposition was raised to this amendment on the grounds that it would open the gate for politics in the highway department. As a substitute for it, Senator Wall, of the 5th, offered an amendment, providing that the commission should elect its own chairman after the governor had appointed members of the board. This was lost by a 23 to 11 vote.

governor had appointed members of the board. This was lost by a 23 to 11 vote.

Senator Johnny Jones, of the 27th, spoke in favor of the Wall amendment, declaring that it would increase efficiency of the board and would still leave the governor his appointing power without giving politics a chance to enter. He declared that he was not opposed to appointment of Mr. Holder as he thought Mr, Holder as he thought Mr, Holder as a capable man, and added that he was not fighting Governor Hardwick in his opposition to the Clay amendment. He declared, however, that he did not want to give politics a chance to destroy efficiency of the highway commission.

Clay Supports Amendment.

President Clay left his chair and spoke for his amendment declaring that the governor should have the right to name the chairman of the commission. He stated that it would give every governor the right to name a capable man to head the commission and that he was most desirous of seeing Governor Hardwick name Mr. Holder. He declared that the present system of variation was not efficient and that. The cher places in which the chief executive spoke were North Stratford. Colebrok and Berlin. In the same speech, which was addressed to a group of disabled world war veterans, Mr. Harding said the real reason behind the administration's opposition to immediate action on soldier compensation was that it desired first of all to do its duty by those who came from the war impaired.

The president's appearance here was a part of a strenuous day's program which concluded his vacation visit to New Hampshire by giving him a taste of almost every experience except rest and quiet. He declared that the present system of rotation was not efficient and that, as Mr. Bennett did not desire to become chairman, it should not be forced on him.

Senator Walker, of the 18th, introduced an amendment to eliminate the office of attorney for the department beginning in 1924, which was defeated.

A big picnic dinner will be served and all of the descendants of either the Barges or the Dorsetts—both extensive families—are invited to be present.

Arrangements for the reunion of these two well-known families are being made by Dr. J. R. Barge, well-known Atlanta physician, whose office is in the Georgia Savings Bank & Trust Co. building, formerly the Flat Iron building.

The late Jacob Barge and his wife, Mrs. Margaret Dorsett Barge, were for many years well-known country residents in the section to the southwest of Atlanta. They have many descendants, particularly in this community and some located in distant states. A large gathering of both families will be on hand at next Sunday's reunion, and Dr. Barge requests that if any representatives of either of these families should wish further information concerning the reunion they can get it by communicating with

Mrs. Miller was 65 years old. She was the widow of the late John A. Miller, pioneer citizen and for many years prominently connected with the live, stock industry. Mrs. Miller was for many years a devout member of the First Methodist church and was an active church worker.

Many deeds of charity and acts of philanthropy have become associated with her name. About fiften years ago she conceived the idea of establishing a home for incurables, which was made possible only through her untiring efforts on behalf of the movement and the contribution of a tract of land by A. G. Rhodes. The institution is the present Home for Incurables. Mrs. Miller personally supervised the institution during its first years of operation, acting for the King's Daughters. of which she was a prominent official.

The successful organization of the Wesley Memorial hospital was largely attributable to her zealous efforts and energy.

A movement for founding and organizing the Home for the Friendless was also made possible largely through her untiring efforts in its behalf.

Mrs. Miller was born in Maysville, Ky., and in 1881 moved to Atlanta where she has since lived.

She is survived by three daughters, Mrs. Raine, of Atlanta: Mrs. Geddings Tupper, of New Orieans and Mrs. Clark Frazier, of Blakely, Ga.; one son, J. Hall Miller, of Atlanta; two brothers. Sam and W. F. Hall, both of Maysville, Ky. Mrs. Miller was 65 years old. She

London, August 5.—The British imperial conference regrets very much that it has been decided to hold no preliminary meeting to the Washington disarmament conference, believing the big conference could be made most effective by a previous understanding on Pacific questions. This is the attitude of the imperial conference expressed in a report given out here Friday night.

Why Conference Failed. The imperial conference, the report continues, considering the difficulties of attendance which the representatives from the dominions representatives from the dominions must overcome, spent much time depotating as to where the preliminary conference might be held to the greatest advantage, and it was under those considerations that the idea was mooted of holding the preliminary meetings in London—"consultations to which the American government had in principle agreed." But, the report states, the imperial conference upon learning of a misunderstanding, volunteered to attend in America.

The British prime minister and foreign secretary, together with the dominion prime ministers were prepared to attend such a meeting. The Japanese government signified its willingness. The American government, however, did not favor the idea, which, accordingly was dropped."

British Hope for Success.

Then the report proceeds to express regret, further explaining the British intentions, saying it had been hoped by a preliminary meeting to remove every possible obstacle which the British empire desired to be attended by complete success.

desired to be attended by complete success.

Then, with noticeable reticence, the report mentions other matters considered. It resolved that the minimum naval power which the empire should maintain should equal that of any other power, though final determination of that strength was deferred pending the results of the meeting in Washington. The premiers decided that each commonwealth should determine its own measures for the restriction of immigration, saying that it was desirable to give British Indian subjects the right of citizenship. From this the South Africans dissented.

TAX RATE IN BROOKS TO REMAIN UNCHANGED

Quitman, Ga., August 5.—(Spécial.)—The annual tax rate was levied by the county board of commissioners at their regular meeting this week. A full board was present and a number of routine matters were disposed of. The tax rate is \$12.50 on each \$1.000 taxable property, which is the same as the rate last pear.

This year, however, the county will not receive as much money on its income as previously, for the reason that there is a shrinkage in valuation indicated in the tax digest, and the county will be compelled to manage its affairs on about \$11.000 less as compared with the last income.

## Army Air Service Plans Bomb Test On Old Alabama

Washington, August 5.—(By the Associated Press.)—An independent bombing enterprise against naval craft is being planned by the army air service. With the old battleship Alabama as a target and using missiles up to 4,000 pounds in weight, the army fliers hope to add a new chapter to the inter-service controversy which recently resulted in destruction from the air of a number of former German war vessels.

The Alabama was selected for the victim, following request of the army for a target ship. Acting Secretary Roosevelt has announced that the navy department is dismantling the vessel and wilf be ready to turn her over to the land and air warriors about September 1.

With the event exclusively an army affair, it was said today that efforts would be made to stimulate actual battle conditions when the Alabama comes under fire. For that purpose the army asked that the ship be turned over in seagoing shape, absolutely water tight, bulkheads sound, steam in her boilers and ventilating and communicating systems in working order. Request also was made that her magazines be filled with full loads of powder and that in all respects save her useful offensive armament, which is being salvaged, she be ready for action.

being salvaged, she be ready for

being salvaged, she be ready for action.

Army plans call for all phases of air attacks at sea. Everything from the 300-pound bombs, similar to those first rained on the German dreadnaught Ostfriesland, to missiles double the size of the 200 pounders which sent her down will be employed, it was said, and in addition new smoke and gas bombs will be hurled at her decks from above. Several new projects of the chemical warfare service are to be tested out against me Alabama and penetrative qualities of the gases will be measured by means of the ventilation system on the ship.

The air service also plans to attack the Alabama with torpedoplanes. In this phase naval airmen, may be asked to participate, it was, said, as army development of the air torpedoes is not regarded as a fully satisfactory.

The Alabama is a much older ship than was the Ostfriesland but protected by armor varying from 16 1-2 to 9 1-2 inches in thickness as a gainst 11 3-4 to 6 3-4 on the German or aft. The protective decks are about the same.

much remains to be done to complete our economic readjustment.

Officials of corporations are showing some concern over the poor operating results during the first six months of the year, and upon making a forecast for the balance of the year based upon orders booked and possible business in sight, there are strong indications in many lines of business that the year 1921 will not show substantial profits, and as a matter of fact in many cases actual losses will have been made.

Different conditions apply generally to practically every business, but it can be safely stated as applying to all industries that it is a very good time to anticipate financial requirements and to either strengthen bank lines of credit or to undertake additional financing.

With the feeling that southern Ireland has made up its mind to accept Lloyd-George's offer, the crisis is gradually shifting towards Belfast, and the press and public are more concerned with Sir James Craig's attitude and activities than they are with what is transpiring in Dublin.

Senator Sees Only Hope of Party Salvation in Plan to Reduce Defensive Strength of Nation.

BY RALPH H. TURNER

United Press Staff Correspondent. Washington, August 5 .- As the first reaction toward Secretary Mellon's statement that government expenditures must be slashed \$250,-00,000 in order to prevent a tax increase, the cry has been raised now for a further cut in the cost of the army and navy, represented as the only sources where the administration can enforce an appreciable saving.

Borah, of Idaho, who urged in the senate Friday that the army be reduced to 100,000 and that work be discontinued on the six battleships which the United States is building. Borah's demand for reduction of the army was embodied in a resolution which he introduced. This would save between fifty and seventy million dollars, he said. Discontinuance of the battleship program, he added, would save \$200,000,000.

Party Worried Over Taxes. Borah recognized the concern over the tax question which is developing from the party stand-

"We can't afford as a party," he declared, "to permit an increase in taxation this year. We have reached the point where we are considering whether we are going to raise taxes instead of lowering them. To increase taxes would be a disaster: to fall to reduce them would be deplorable. If we raise the taxes we (the republicans) will have a smaller membership in congress next session. The people will demand to know whether they are going to get relief.

"We must set about reducing the army with the same zeal and vigor that we practiced when we started to increase it." Chairman Fordney, of the house ways and means committee, said later that he endorsed Borah's suggestion and believed the army

night be cut even to 75,000. Demand for Economy.

The demand for economy in the var and navy establishments was accompanied by a well-founded report that President Harding, upon his return to Washington, will assist personally in the attempt to solve the tax problem. amnesia, came to attention of police Friday night when officers answered a call from the clerk of a downtown house and took under their care a man who gave him name as H. T. Towns, aged about 45, of Nashville, Tenn.
Police were told at the hotel that the man entered the hotel early Friday and regisered, being apparently in full possession of his faculties. In the afternoon, it was stated, he began to display evidence of marked restlessness and nervous ness. Finally at 10 o'clock his actions became so strange that police were notified to investigate his odd behavior.
Officers stated he was clearly out of his mind, repeatedly calling to them to "save him," and stating that two men were relentlessly pursuing him to kill him, so they could secure his little cottage in Hermitage, Tenn., a suburb of Nashville. On his person was found about \$400 in cash, which he stated his little niece had given him to add him to escape death at the hands of his pursuers. The man also seemed to have suffered a lapse of memory. When asked if he were married, he replied that "he couldn't remember." emember."

He is being treated at Grady hos-vital, where it was stated that his ase is a most baffling one.

### RIVER BOAT LINE TO BE IN OPERATION BY SEPTEMBER 1

Savannah, Ga., August 5.—(Special.)—It is announced today that by September 1 the river boat line between Savannah and Augusta will be in actual operation. For several years past boat lines from Columbus down the Chattahoochee. from Macon to the Atlantic and from Augusta to Savannah have been proposed and in some cases for a time have been in operation. ## Phone Girl Sues for \$20,000,000 GREEKS ACH

Milwaukee, August 5.—(Special.) Miss Susan Shabach, pretty Milwauly awaiting the outcome of a legal battle whose success would make her the owner of \$20,000,000 or more. Miss Shabach, who operates the switchboard at a hotel, recently discovered that papers, long in the ession of her family, may give er a clear title to the huge estate deft by Stephen Girard, early slave trader of Philadelphia, who died seventy years ago.

Frederick Groelle, attorney for Miss Shabach, has gone to Phila-delphia to begin the struggle on behalf of the telephone girl and

orer relatives.

Girard, according to Miss Shaoach, amassed a fortune of milcions of dollars, most of it in the
clave trade thriving before the civil slave trade thriving before the civil war.

He never married, and being very fond of his home city, Philadelphia, made a will leaving his vast holdings to the city, after which he died suddenly. The will was declared void by the state of Pennsylvania due to technicalities and the estate reverted to their heirs.

In 1851 Dominic Girard, a cousin, started a suit to recover part of the property and in 1853 won a successful decision. But Dominic, too, died, and although the document was preserved, the family never made a claim untal recently, when Miss Shabach decided to make an attempt to recover the property.

Two other heirs beside Miss Shabach would benefit by the successful outcome of the action. They are William Shabach, her brother, now living at Pontiac, Mich., and Simon Girard, grandson of Dominic, whose home is here.

## Regulations Ready For Prescriptions Of 'Medicine Beer

washington, August 5.—Regulations which will permit the prescription as medicine of a case of beer at a time without limit as to the number of prescriptions are understood to have been completed by the internal revenue bureau and now await the decision of Secretary Mellon as to their issuance. As the secretary is away for the weeken, it was indicated no action could be expected Monday and that this may be affected oy enactment of anti-beer legislation.

The Willis-Campbell anti-beer bill, which is designed to correct the enforcement act as interpreted by former attorney-General Palmer in the matter of medical beer, was debated in the senate today but adjournment was taken until Monday without an agreement for a final vote being reached. Opponents threatened to continue a protracted debate of the measure.

Senator Broussard, democrat, Lousisians, criticised the failure of the internal revenue to promulgate the regulations for the prescription of medical beer, but Senator Nelson, republican, Minnesota, contended that by the withholding of the regulations, brewers had been protected against needless loss.

The crime for which Hollahd was convicted was sald by the police to be the boldest bank robbery in the history of Louisiana. The long signed statement he gave out tonight constitutes his only interview on the subject. It added little to the facts brought out at the recent trial, although Holland insisted that his confederates "got an even split" on the loot, which was \$8,000.

"I am going to read and study for the first four or five years," says the statement in conclusion, "and then I'm going to try to write. I've always had a hankering to write. Just watch my smoke when I get started."

Scarsdale, N. Y. August 5.—Unceremoniously dumping her crew of three into a marsh on Barren island, near the Rockaway naval air station, the towing dirigible H-1 rose swiftly to a high altitude, became the prey of prevailing breezes and ended an unpiloted journey of fifty miles by settling unharmed into a field near here tonight. # PRESTIGE IN WAR

Athens, August 5.—From the cit; of Ismid, just across from Constan-tinople, southward through Eski Shehir and Afioun Karahissar—th Shehir and Alloud Asianissal three important railroad junction of Asia Minor, Greek armies are i complete control. Eastward at An gora, headquarters of Mustapha Kemal and his Turkish nationalist forces, the advance bombardment of Hellenic guns is in progress, and airplanes are hurling down their bombs upon a demoralized Turkish

bombs upon a demoralized Turkish army.

Under these conditions, with every important objective of the Greek offensive against Turkey won, and with Mustapha Kemal's battle strategy reduced to dogged hill fighting and guerilla-like attacks on the Greeks, Athens finds herself in a splendid position to press her claims in the revision of the Sevres treaty which is to come before the supreme council meeting next week.

before the supreme council meeting next week.

This is the second Greek attempt to drive the Turk from Asia Minor. The first was a miserable fallure, earlier in the year, when, after taking Afoun-Karahissar, the Hellenic soldiers were badly defeated and forced to retreat, panic-stricken. Lack of supplies; lack of artillery and ammunition—with which the Kemalists had apparently been plentifully supplied from bolshevik sources, hampered the first campaign.

Constantine Calls for Treops.

When Constantine returned to the throne some weeks after the overthrow of Venizelos, he symbolized the aspirations of the Greek military party, and almost simultaneously with his resuming the reins of government, the call for the mobilization of new classes went out. In punishment for the temerity of the Greek people in demanding their alleged Germanophile king back again, the allied government, chiefly on French instigation, began to talk of means of punishing the Greek nation. Revision of the Sevres treaty, restoring to Turkey a great part of the territory lost to her, was practically decided upon at a conference in London at which the Kemalist delegates were everywhere honored and the Greek delegates were everywhere honored and the Greek delegates were everywhere snubbed. The question, however, was not settled, largely because Lloyd-George's views on the subject were more liberal towards Constantine than were those of France. Constantine Calls for Troops.

made through June and July, without a single reverse.

Aflour Karahissar was the first to fall, and from this important railway point it was an easy step to the capture of Eski-Shebir. Within the last week the nationalists have been driven eighty miles to the east of Ismid, and the entire western part of Asia Miner is thus completely cleared of Turkish domination.

It is, therefore, difficult to see how, in the light of these circumstances, any revision of the Sevrest treaty which restores to Turkey territory now under Greek control, can be effectively made operative. Moral suasion will not hold Greece back because moral suasion has seen a flat failure throughout the year. And the allies, with Silesia on their hands, are hardly in the mood or the position to make any streat, armed demonstration in the Near East.

Leaders at Athens, therefore, are rejoicing already at what they believe is the successful conclusion of the Pan-Hellenic program.

# LAG IN COMMITTEE FOR SUM OF \$15,000 Chicago, August 5.—E. C. Clinton,

Washington, August 5.—Final action by the senate finance committee on the Fordney tariff bill appeared tonight to be farther away than at any time since the measure was turned over to it two weeks ago. There were no signs that the committee would be able for some days to enter into executive consideration of the two controversial phases of the bill—American valuation and the dye embargo—and no hearings have been held or study given yet to rates and other provisions.

Indications that senators will demand figures on production costs and profits and a multitude of other details of the dye and chemical business developed today. Senator LaFollette, republican, Wisconsin, announced he had prepared a list of questions covering such subjects and proposed to propound them to all witnesses.

Chairman Penrose had planned early in the week to begin executive sessions next Thursday. The dye embargo controversy, however, has developed so much discussion that it was said the testimony will probably not be concluded by that time. The subject has brought letters from Secretaries Weeks and Denby, it was announced although the letters have not been made public. They are understood, however, to express the keen interest of the war and navy departments in the matter from the standpoint of national defense.

BY FUZZY WOODRUFF Heavy Division Shows Dire Need

the big money.

Still Going Good.

conclusively.

Atlanta boxing enthusiasts have made no mistake in hailing Young Stribling as a looy likely to put Georgia on the puglilistic map. His victory over Kid Peck Thursday night at Macon showed his class conclusively.

To show how desperately short the heavyweight division is of any material to pit against Jack Dempsey for his title. Tex Rickard is holding palavers with a representative of Jess Willard, looking to a return engagement between the Kansas behemoth and the Utah mauler.

Resurrection of Jess

Kansas behemoth and the Utah mauler.

Now if Willard wants a return match, prize ring precedent gives him the privilege, but it seems a strange thing that Willard should seek a match now, when he is nearly three years older and a ton or of atter than he was when he was hopelessly outclassed by Demosey in Toledo.

The answer is that Rickard rec-

in Toledo.

The answer is that Rickard recognizes the pugilistic fact that in somuch as interest is stirred in the heavyweight division, so interest is stirred in the other divisions and a man makes his living promoting prize fights cannot hope to make many millions when the heavyweight division is in a dormant state.

So Rickard must keep up interest in the heavies at all costs, and Willard seems to be his one and only chance. Brennan never had the class. Martin is too inexperienced, Gibbons is untried. A return between Dempsey and Carpentier would be a joke.

I can't see where a return go between Willard and Dempsey wouldn't be just as farcical, but there are still a olt of people who believe that Willard learned enough in his last scrap with Dempsey for him to train properly this time and taking advantage of his great height, weight and reach, make things interesting for his conqueror should they clash again.

I don't imagine the scrap would draw 93,000 folks, but I do imagine that it would draw enough to weight down the pockets of Mr. Rickard, Mr. Deppsey and Mr. Willard, which after all is the desideratum. Peck is as tough a little nut as this neck of the woods affords. He had stopped Dick Leonard, the classy little Savannah boxer, and lots of folks thought that he was rugged enough to give Stribling a lacing.

LaGrange, Ga., August 5.—(Special.)—In a very one-sided game LaGrange defeated Rome, 18 to 1. Local players increased their batting averages, getting 17 hits on Lowry and 2 on Fox. Shanner pitched airtight ball in the pinches. Thrasher got a home run and three singles out of 5 times up and made a beautiful one-handed catch of Rutherford's long drive in third inning. McCulloch got 3 hits out of 4 times up; Bowden 2 out of 2 and Ricks and D. Milner 3 out of 5. Ricks' sensational fielding was also a feature of the game.

case. Neither the best team in the National league nor the best team in the American league would grab Right now the St. Louis Cardi nals are playing the best and most There isn't much question that in a seven-game series they could take the measure of the Glants or the a seven-game series they could take the measure of the Glants or the Pirates or both.

The same is absolutely true of the Washington Americans.
But fortunately for good of the game, the pennant isn't awarded on playing in one month alone. The team that wins has to be a team that averages about as good as the best the whole season.

the Druid Hills clubs, the memberships of both being addicted to the Scotch pastime.

Be it remembered that a series of matches was arranged between teams representing Druid Hills and the C. C. C. The first match was played at Brookhaven, the home course of the Four C's. The Four C's were victorious. The next matches were played over the Druid Hills course. D. H. came in on the chin strap.

And now a third and decisive match is to be played. "Play it at Brookhaven," says the C. C. C. C., which is proverbially hospitable, "No, no. Be our guests," says D. H. which also has a reputation as a zenial host.

Whereupon nobody was fooled, but both sides began looking around for a neutral course, as it were.

Ingleside has been suggested. Ingleside is the longest course around Atlanta. Incidentally it is one of the hardest. Furthermore, neither the C. C. C. C. players nor the D. H. experts know anything about it.

So sometime today, Clarence Knowless, representing the Four C's, and Veasey Rainwater, representing Druid Hills, are to get together in general pow wow at which all the gory details will be worked out, with the probabilities high that Ingleside will be selected.

PETE HERMAN MATCHED FOR BOUT ON LABOR DAY

New Orleans, August 5.—Pete Herman, bantamweight champion of the world, has been matched with Young Montreal, of Providence, for a ten-round no-decision bout here Labor day, according to announcement today by Promoter Dominick Tortorich.

Herman agreed to terms several days ago, but the promoter just closed with Montreal. The challenger got two decisions over Herman in recent bouts in Boston, and is considered by many the foremost contender among the bantams. Herman announced today that within a month after his Labor day bout, he will be ready to defend his title against either Montreal or Lynch.

Two trophies will be given i each of the weekly tournaments, one for the low gross and one for the low net. Winners in one of the weekly affairs will be ineligible to win anything else except the grand prize, thus making it posible for at least eight of the participants to come through with trophies.

Each week-end event will start Saturday and end Sunday, thus giving the entrants two days in which to shoot their 18 holes for weekly medals. Winners of these tournaments will be announced every Monday morning in The Constitution. All scores must be turned in immediately after they are made to Robert Ogg.

Ogg stated last night that the work of perfecting the handleaps had been completed, adding that, in his opinion few changes would be necessary, as the figures had been made from five qualifying rounds played over the Piedmont course by the golfers that are entered for the tournament.

doubles on the grass courts of the Allegheny Country club, 4-6, 9-7. The play today gave the Australians their portion because they were the stronger team in the two last sets. After the British had taken the lead, two sets to one, the placement shots and deadly serving, to win three sets out of five. The British team showed splendid judgment in the first set, which they won 6-4, scoring 34 points to the Australians' 22. Todd's service was deadly, while that of his teammate. Anderson, lacked precision and force. Turnbull was a tower of strength with his net shots, invariably sending the ball high in the air when he got it to the net. Woosnam was especially successful in placing the ball in the corners of the court. The British took the last two games of the set, the final game being easily won.

The second set was desperately played and tied up four times. The British used rare judgment in their team work, in the early games, and Turnbull kept up his cannonading at the net. The Australians played brilliantly in the last two games, which they won after the fifteenth game had gone to deuce, and won the set, 9-7.

## EAST MEETS GEORGE HARVEY TALKS WEST TODAY

Newport, R. I., August 5.—The Kinsey brothers, Robert and Howard, Pacific coast doubles champions, are the sole survivors of the western players in the Casino invitation lawn tennis tournament, which will go into its final rounds in both singles and doubles tomorrow. William M. Johnston, of San Francisco, former national champion, was defeated by Watson M. Washburn, of New York, in the semi-finals of the singles today, and later, paired with Willis E. Davis, of San Francisco, succumbed to the attack of Washburn and R. Norris Williams, II., of Boston, in the doubles semi-finals. The Kinseys easily defeated Nathaniel W. Niles, of Boston, and Wallace F. Johnson of Philadelphia.

Washburn and Williams won from the western pair by the scores of 3-6, 6-3, 3-6, 6-2, 6-3. It was a battle from start to finish with many thrilling rallies. Davis was the weak point in the Pacific coast combination and the concentrated fire of the easterners drove him into repeated errors. Johnston showed an improvement over his form in the singles match against Washburn. Willams and Washburn were effective throughout, playing the net with well-stroked shots. The westerners were unable to locate the base line with their frequent lobs.

Kinseys Win Easily.

The Kinseys Win Easily.

The Kinseys brothers had no difficulty in disposing of Niles and Johnson in straight sets, 6-3, 6-3, 6-0. Both were at the top of their game and proved themselves wonderful ground-getters.

Washburn will meet Williams in the singles finals. Williams advanced today through the default of Zenzo Shimidzu, the Japanese star, who was taken ill late yesterday. Shimidzu was better today, but still weak, and will not play at Seabright next week, reserving his energies for the Japan-India Davis cun match at Chicago.

Washburn's great steadiness and frequent change of pace gave him the victory over Johnston in a long-drawn-out match, 4-6, 6-3, 6-2, 1-6. 6-4. Johnston's only flash of his old-time form came in the fourth set. When his placements and hard drives put the easter of his departure for France, where he will take part in the sessions of

New York, August 5.—Babe Ruth stood by just before the ball game between the Yanks and the Tigers at the Polo grounds Friday afternoon and watched in amazement as the Babe Ruth of another sport. Harold G. Lentz, the champion surf fly-caster, with an ordinary god and fishing reel, hurled a four-ounce lead slug far over the certer-field fence, ever the elevated railroad and into the vacant lots beyond. Lentz had been invited to see if he could better Babe's longest home run which struck in the center-field bleachers and is expected to stand as the best of all for a good many seasons.

Lentz's cast over the "L" tracks, more than 600 feet, did not count, however, as the fish line had parted. He then made four successful casts, heaving the lead slug 440 feet on the longest.

Ruth got one hit and one run in the ball game which the Yanks won 7 to 3. He walked with one out and one aboard in the first and died on the bag. Veach caught his fly in the third. In the sixth as first up Babe singled and scored on a hit and an error. With two out and nobody on in the seventh Babe again flied out.

## Traders Short on Stocks NEW YORK STOCK EXCHANGE Howl and Reduce Prices

New York, August 5.-Late yesterday rumors were heard through-New York, August 5.—Late yesterday rumors were heard throughout Wall street that a Boston stock exchange firm, which was also a member of the New York stock exchange, would announce its failure today. The announcement of the suspension of Hugh J. Diamond & Co. was made early today. That with a renewal rate of 6 per cent on call money, started professional traders who have not covered their short commitments to howling calamity. This howling, accompanied by renewed short selling, brought about lower prices. Copper shares sold off a point on yesterday's news that the price of the metal had dropped, below 12 cents. Since March the price has wavered along in the neighborhood of 10 to 11 cents under the bearish influences of tight money, depressed business and no market, but the staple has been considered worth much more should world business conditions improve regardless of coming crop conditions. The prediction of a short crop a month ago started prices upward and the buillsh situation aggravated by reports of severe deterioration has given an impetus to advancing prices and experts are now wondering where the rise will stop.

Leaders in the obtton market at New York and New Orleans announced bullish impressions Friday and buyers were found in ring professionals, foreign and domestic mills and Wall street speculators.

Latest advices from the states west of Georgia are gloomy and predictions are made that the crop will be a complete failure unless there is a change for the better soon in weather conditions.

Under such circumstances, a leading elevator interest here was a persistent seller throughout the day, and there was also much selling pressure from the southwest. New York, August 5.—The cotton market showed renewed firmness to-day with prices making new high ground for the movement. October deliveries sold up to 13-57 compared with 11.86, the low price touched toward the end of last month and 11.22, the low record of last June. That delivery closed at 13.44, with the general market closing steady at a net advance of 30 to 34 points. than there had been around the thirteen cent level earlier in the week.

Wall street houses were good buyers on the advance, while trade buying appeared in evidence on comparatively slight reactions and the best prices of the day were reached during the afternoon when December sold at 13.97 and January at 13.92 with active months generally showing net advances of 42 to 45 points. There was a little more realizing as prices approached the 14 cent level for December contracts, but closing prices were within 10 or 12 points of the best on most positions. The statement of Governor Harding of the federal reserve board with reference to cotton as quoted to the effect that with crop prospects poor and exports picking upbanks everywhere were justified in carrying loans, probably contributed to the day's advance. Aside from that and the bullish crop advices, buying was stimulated by talk of a broadening demand for woods.

Private cables attributed the advance in Liverpool to bullish crop advices from the south. but complained of continued dull trade. Business in futures here was more active than previously this week with a broadening of interest indicated by the trading of local commission houses.

and dry weather. Several private forecasts were received, estimating the Texas yield at around two million bales.

Bullish sentiment was increased by complaints from the Carolinas, similar to those coming from the west. South Carolina, especially, claimed that the plant was suffering from hot and dry weather. The spread of crop complaints to the castern belt had the effect of causing considerable covering of the short interest and market gossip had it that important lines of short contracts were being reduced.

PROFESSIONAL VIEWS ON COTTON SITUATION

New York, Angust 5.—(Special.)—The trade is slowly realizing the fact that reported damage to the crop in Texas and Oklahoma is assuming greater proportions than was first anticipated. The reports from Georgia also indicate a serious serback to the crop. Other reports we consider a trifis exaggerated. October is turning out to be a very strong month and there was a noticeable switching between that month and December, buying the near and selling the distant.

Liverpool was a moderate buyer on the opening, in addition to local and spot houses buying. We hear from our office in the dry goods district that sheetings have advanced 20 per cent in the last two weeks and that there is a decidedly better demand from the trade. There was considerable cotton for sale on the advances, but the demand soon took these offerings and the market continued unward. The feeling is much better than heretofore and if spinners realize that good cotton is not as plentiful as was first supposed, we can expect a

tinued hardening in the basis and an imvement in our market.
HUBBARD BROS. & CO.

New York, August 5.—(Special.)—The most interesting piece of news before the public and affecting cotton today is the statement credited to Governor Harding, of the reserve board, as saying there is no comparison between the condition a year ago and conditions today. Take cotton with a low yield and exports picking up, banks everywhere are fully justified now in carrying loans. A more important expression for stimulating cotton prices could hardly be made by anyone and its effect will probably permeste every artery of the cotton trade. More reports of unfavorable weather generally over the beit came in today. Sales of dry goods in the Fall River market during the past few days are reported to be very heavy. The spot basis in Texas hardened from 175 to 130 points off October for midding yestedday, but in this market it must be remembered that reactions are natural, but when breaks come advantage should be taken of them for entering on the long side.

Governor Hardwick Friday granted a parole to H. B. McWhorter, of Fulton county, who was convicted in connection with the operations of a big automobile thieving syndicate which operated in Atlanta several months in 1918 and sentenced to serve five years in the state penitentiary.

At the time of his conviction it was charged that McWhorter was one of the leaders of the syndicate which, during its operations, obtained several hundred automobiles. McWhorter operated a garage in Atlanta from Braniarium Pivate, refired, homelike: homes provided for infarts.

The parole of the prisoner was recommended by the state prison commission. It was shown that McWhorter had given officers valuable ald in locating other members of the syndicate living in other states and helped them to obtain convictions. It was stated also by the commission that McWhorter has made a wonderful record as a prisoner. He served nearly all of his time in Jackson county. He had served more than one-half of his sentence when paroled.

The sentence of John Hall. of Putnam county, to serve 12 months beginning January 29, 1921, was convicted on a liquor charge.

A parole was granted to J. B. King, convicted in Fulton county for stealing clothing and sentenced to three years. The charge was that King stole clothing from his mother and was prosecuted without the knowledge of his mother.

A. C. Danzey and D. W. Webster, convicted in Crisp county on charges of automobile theft and sentenced to three years beginning in July, were paroled. All of the paroles were granted on recommendation of the state prison commission.

New York, August 5.—An all-Russian famine committee has been appointed to visit Engiand in an appeal to the world for aid in feeding the starving people of the ten blighted provinces of the empire, according to a cable received Friday at the office of "Soviet Russia" from the official Russian telegraph agency at Moscow.

Among the members of the delegation to Great Britain, the cable says, will be the academician, Ipatiev, Professor Rein, Chertkov, the Tolstoyan, Pavolv, "the Baptist," and others. The cable continues:

"Two fully equipped sanitary and relief trains left Moscow on August 1, to care for starving children in the drought-stricken districts. Each train is equipped to take care of six thousand children. According to the census, the total number of children in the Volga drought region is 6,500,000.

"All the state theaters will devote the entire month to benefit performances for the famine sufferers. Relief campaigners will address the audiences. Stock companies will tour the countryside in the prosperous ragions, making an appeal for donations from the peasants. Admission prices: first row, three pounds of grain or four pounds of peas, or lifteen pounds of potatoes; second row—and so forth."

## ATLANTA QUOTATIONS SPOT COTTON MARKET

New York, August 5.—Further profit taking, coupled with renewed selling for the short account and weakness of various specialties There was no semblance of the ength which characterized deal-

strength which characterized dealings early in the week. Although the volume of offerings was not large and movements in most cases were limited to moderate proportions, the recession continued without interruption to the close. Profit taking was active among the railroad stocks which were most prominent on the recent rise. Oils, steels, equipments and coppers were all under pressure, and there was selling of motors and tires. Among the specialties, United Drug was again under attack and sold down to a new low point for the year at 52 3-4.

The sugar group made little response to continued firmness in the market for refined sugar, although

Perhaps chief in independence in the latter estate until the will has been ap direction may be put better realization of the strength of commodity prices during July. Another favorable development of the week has been the apparent checking in most states, by more or less copious rains, of the deterioration shown in the corn crop caused by past heat and drought. It may be added, however, that the crop prospect is not entirely a favorable one. Other features of the week have been a continuance of the relative steadiness of the stock market after its "creeping" rise from the low point in June; a slight increase in buying of iron and steel, based on immediate needs, among which railway repairs and renewals are prominent, accompanying a slight gain in capacity; better reports as to railway earnings in June; larger buying of wool, based on good orders for next spring's goods, and a very firm market for most cotton goods. Offer of Help From Entire World Reveals Falsity of Bolshevist Propaganda Against Nations.

United News Staff Correspondent,
Washington, August 5.—American relief for famished Russia is
expected by authorities here to
bring some interesting developments in soviet rule over that country.

Ever since the inception of the Lenine-Trotzky regime at Petrograd the contention of soviet chieftains has been that "capitalist nations" were trying to wipe out Russia's existence. This cry, altering its basis as conditions changed from time to time, has been responsible for the soviet chittains holding their people together as long as they have, in the opinion of administration leaders.
"What will be the next slogan?" officials wonder, now that the "capitalist nations" have indicated a

Hoover would grant the appeal and when it was accepted there was nothing to do but go shead with it.

Hoover, it is said, will deal in his relief work only with the soviets. The administration apparently wants it understood that the soviets are to be responsible for the protection of relief workers and also that the soviets are to be responsible for the protection of relief workers and also that the soviets are to be responsible for the protection of relief workers and also when it was accepting outside aid. The reaction to this situation that of when they see that outside nations are seeking to save rather than to extinguish Russia?

"Radically Wrong."

At the conclusion of his talk the chairman introduced John T. Topham; professor of mechanics at Georgia Tech, who stated that it is no concealed fact that something is radically wrong and urged the election of efficient and upright men to office.

He was followed by John A. Culver, candidate for councilman from the second. Mr. Culver did not commit himself on the police situation but declared that he was in favor of better streets, improved school conditions, free text-books and the enforcement of law and order.
